PROFESSIONAL SUMMARY

Junior Software Developer with hands-on experience in cross-platform application development and Shopify-based eCommerce solutions. Proven ability to build scalable, responsive applications using Flutter and modern backend technologies. Strong experience in Shopify theme customization, custom app development, RESTful API integration, and secure authentication. Solid understanding of clean architecture, state management, and database-driven systems. Adaptable team player with experience handling multiple projects in fast-paced environments.

WORK EXPERIENCE

JOOLA INDIA PRIVATE LIMITED

Bangalore, Karnataka | August 2024 - Present

Junior Software Developer

1. Racket Professional Organisation (RPO) Coaching Platform

- Developed a full-stack licensing and certification platform for the Racket Professional Organisation (RPO) supporting pickleball coaches across the United States.
- Built a cross-platform frontend using Flutter and implemented backend services using Node.js and Express.js with RESTful APIs for user onboarding, certification workflows, and admin management.
- Integrated MySQL for structured data storage and implemented secure JWT-based authentication with role-based access control.
- Collaborated with cross-functional teams to support evolving requirements and ensure scalable, maintainable application architecture.
- Supported certification workflows, user onboarding, and admin management features while collaborating across teams.

2. JOOLA Global Shopify E-Commerce Platforms

- Designed and developed Shopify e-commerce websites for JOOLA subsidiaries across India, USA, Canada, and Australia.
- Customized Shopify themes using Liquid, HTML, CSS, and JavaScript to align with brand and UX requirements.
- Developed custom Shopify apps to enhance store functionality and streamline internal workflows.
- Integrated third-party Shopify apps for payments, analytics, and customer reviews.
- Optimized site performance, SEO structure, and mobile responsiveness.

Custom Shopify App – Smart Discount Guard

- Developed an internal Shopify app to prevent discount misuse and protect revenue during checkout.
- Implemented real-time cart validation to detect free (100% discounted) items and conflicting discount codes.
- Automatically enforced discount rules by removing free products when additional discounts were applied.
- Displayed transparent user notifications while maintaining a seamless checkout experience.

PROJECTS

Dynamic Trust Badge Manager – Shopify App (Personal Project)

- Built a custom Shopify app to increase customer trust and conversion rates by dynamically displaying trust badges across storefronts.
- Enabled merchants to configure badges at product-level, collection-level, or store-wide scope.
- Implemented flexible badge creation using external image URLs or direct image uploads.
- Developed an intuitive admin interface to add, update, and remove badges without technical dependency.
- Ensured dynamic rendering with minimal performance impact and no disruption to existing theme structure.

EDUCATION

Bachelors of Technology in Information Technology

School of Engineering, Cochin University of Science and Technology

Kochi, Kerala | April 2023

Diploma in Computer Hardware

JDT Islam Polytechnic College

Calicut, Kerala | May 2019
